

SIGN TECHNICIAN III

General Statement of Duties: Performs skilled work in the painting, construction, installation, maintenance and repair of traffic control systems; does related work as required.

Distinguishing Features of the Class: This position skilled work involving a variety of sign making and installation tasks, and the operation of certain mechanical equipment. Duties are performed under general supervision. This class is distinguished from the work of Sign Technician I and II by the level of skill utilized, mechanical ability, and the amount of non-supervised work performed. In addition, supervision may be exercised over the work of Sign Technician I and II.

Examples of Work: (Illustrative only)

- Drives self-propelled street striping vehicle and sign truck.
- Paints street markings, pavement lines and curb markings, as assigned.
- Sets posts and installs new signs, and performs necessary on-site sign repair or maintenance.
- Makes signs by silk screen process in accordance with standard illustrations.
- Designs and builds silk screens.
- Does skilled lettering work in making signs.
- Plots, plans and keeps records of street name sign installations.
- Prepares reports and assists in the maintenance of department records.
- Assists in training and supervision of other staff.
- Assists as needed in meter and signal maintenance.

Required Knowledge, Skills and Abilities: A working knowledge of the Manual on Uniform Traffic Control Devices, along with knowledge of the methods and materials used in the sign painting trade. This position requires the ability to interpret and work from written instructions or sketches along with verbal instructions. Ability to perform all duties s outlines in the Sign Technician I and II job descriptions.

Acceptable Experience and Training: Any combination of education and experience which provides the required knowledge, skills and abilities. Must have a valid Iowa driver's license, with good driving record.
